

Mediator Trial**Les Laboratoires Servier acknowledge the appeal by the Paris Prosecutor's Office in the Mediator case**

Paris (France), April 8, 2021.

Les Laboratoires Servier have acknowledged the decision of the Paris Public Prosecutor's Office to appeal the acquittals of Les Laboratoires Servier for the offences of improperly obtaining a marketing authorization and fraud.

This decision will therefore require a new trial for which the Paris Public Prosecutor's Office is responsible.

Les Laboratoires Servier were willing to accept the court's judgment in order to put a definitive end to this legal case, despite their conviction which they believe to be unfounded.

As a result, Les Laboratoires Servier have decided to appeal their convictions for the offences of aggravated deception and manslaughter and involuntary injury.
