Asia

Cynthia Wang, MBA, MSc

Director, Global Business Development Asia-Pacific,
 Mobile: +86 13910100149
cynthia.wang@servier.com

Global BD Coordination

Bénédicte Barrault

GBD Coordination Officer, Neuroscience & Immuno-Inflammation
benedicte.barrault@servier.com

Partnering Interests

Pre-clinical and early clinical stage

Biological mechanisms

Normalising disease-disrupted protein homeostasis:

- Clearance of toxic proteins
- Regulation of transcription and translation of targets

Target class

Targeting RNA and/or proteins genetically and causally linked to disease

Indications : Rare neurological disorders and sub-populations of neurodegenerative disease

- Hereditary forms of Parkinson Disease
- Rare neurological disorders including:
 - Multiple System Atrophy
 - Familial Amyotrophic Lateral Sclerosis
 - Spinocerebellar Ataxia
 - Progressive Supranuclear Palsy
 - Genetically driven paediatric epilepsias

Modalities and drug delivery

- Small molecules
- Oligonucleotides, ASO
- Technologies to improve the efficacy/ specificity of cellular and brain delivery and distribution (ASO)
- Systemic administration for CNS RNA technologies

Active Partnerships

Partnering with Servier

Partnership is embedded in our culture with highly engaged and diverse teams partnering for a shared purpose - contributing to therapeutic progress to serve patient needs. Our partnership approach serves one goal: to bring life-changing treatments to patients faster. We strive to always put patients first, leading to better outcomes for ourselves and our partners.

A partner of choice

A partner with strong commitment

Servier is an independent pharmaceutical company committed to therapeutic progress to serve patient needs. Its unique governance allows Servier to reinvest all its profits to support its development, as well as plan and invest with a long-term view, in line with its vocation. Servier long-term vision applies to its partnership philosophy.

A partner with a global presence

With €4.9Bn of revenue in 2022 across 150 countries worldwide, the Group has a growing presence in the USA and Japan, a strong EU presence and a deep knowledge of emerging countries and China.

A partner with proven expertise and experience

Servier is very focused on specialty care oncology with a proven expertise of over 60 years in cardiovascular and metabolic diseases. It is developing new therapeutic solutions to serve unmet patient needs. From R&D to commercialization, we have proven experience to help new therapeutic innovations become reality for patients, alone or with partners.

A partner you can rely on

Servier is proud of what has been achieved with its partners so far. Servier has a strong track record of providing flexible partnership structures to its many partners, as well as an R&D infrastructure with 2,900 people in France, Hungary and Boston and an extensive commercial knowledge of global markets.

Partnering interests

Oncology

Discovery & Early Clinical Focus

Cancer cell Targeting

- Synthetic lethality
- Apoptosis
- Precision oncology
- Epigenetic regulators

Immuno-oncology

- Tumor micro-environment
- T cell targeting

Modalities

- Small molecules
- Antibodies, Bispecifics, ADCs

Late-stage Clinical Focus

- Hematologic tumors (NHL, ALL, AML)
- Solid tumors; GI as a priority

Immuno-inflammation

- Autoantibody-driven autoimmune diseases
- And other diseases sharing similar pathophysiological mechanisms

Modalities

- Small molecules
- Antibodies, Bispecifics, ADCs, Fusion proteins
- Oligonucleotides, ASO

Neuroscience

- Hereditary forms of Parkinson Disease
- Rare neurological disorders including:
 - Multiple System Atrophy
 - Familial Amyotrophic Lateral Sclerosis
 - Spinocerebellar Ataxia
 - Progressive Supranuclear Palsy
 - Genetically driven paediatric epilepsias

Modalities

- Small molecules
- Oligonucleotides, ASO

Cardiovascular & Metabolism diseases
